

TEXAS SCHOOL FOR THE DEAF AND BOSTON UNIVERSITY,
CENTER FOR COMMUNICATION AND THE DEAF PRESENT:

American Sign Language Development: Implications for Learning

PRESENTED BY: DR. ROBERT HOFFMEISTER, JONATHAN HENNER & DANIEL DIDONNA
CENTER FOR THE STUDY OF COMMUNICATION & THE DEAF
BOSTON UNIVERSITY

When: Monday, November 4th, 2013

Time: 3:30pm

Where: R.L Davis Auditorium, Texas School for the Deaf,
1102 S Congress Ave, Austin, TX 78704

During this presentation, we will explore:

- ASL as a visual language
- The role and benefits of testing ASL development
- How knowledge of ASL can facilitate literacy and spoken language development

Student testing for this study will be
conducted at TSD during the month of November.
